Sprinting Ahead

Sprinter-based motor homes have taken the industry by storm and no manufacturer gets more out of the Mercedes-Benz® Sprinter chassis than Winnebago Industries®. We were the first to embrace the platform and continue to innovate, bringing you the industry's most fuel-efficient models designed with style and loaded with amenities. The surprisingly spacious interiors of the View® and View Profile® are made possible by our SmartSpace™ design philosophy and innovative features such as the Comfort Sofa Sleeper® to maximize interior space and increase storage capacity. With two View floorplans and two View Profile floorplans, you'll be set to hit the road this year in comfort and style.

Why View | View Profile?

- Mercedes-Benz Sprinter chassis
- Energy-efficient LED lighting
- Ultraleather™ swivel cab seats
- Fuel-efficient travel
- RV Radio®/rearview monitor system
- Coach stereo system with LCD TV
- SmartSpace design maximizes usability
- Flex Bed (24V) twin or queen bed configuration
- MCD American Solo® blackout roller shades

Recognized Quality The RV Dealers Association bestows its annual Quality Circle Award based on dealer ratings to the manufacturers that provide exceptional products, service and support. Only one manufacturer has received this honor for sixteen consecutive years: Winnebago Industries®.

Best in Class

See how Winnebago Industries takes motor home design and function to the next level, and why we've earned the right to be called the Most Recognized Name in Motor Homes.®

Click on this icon throughout the brochure to link to more information on the web.

No Hassle Color-coded labels in the *Exterior Service Center* make hookups a snap.

Open Wide Drawers open wide on *full-extension drawer slides* to maximize storage and easy access.

Blinds Want privacy? Built-in *Cab Window Blinds* make it easy (available on View, standard on View Profile).

Rest and Relax The *Comfort Sofa Sleeper* quickly converts from a sofa into a comfortable bed with self-inflating mattress that automatically maintains proper inflation (standard on 24M, 24G, 24V).

On the Mark The *BenchMark® Full-Comfort Dinette* offers premium innerspring seating that flips up to access hidden storage compartments. At night, it quickly converts into a cozy sleeping space (standard on 24J, 24M).

Night and Day The available smoothly retracting *MCD American Duo Solar/Blackout Roller Shades* let you control your light and privacy—no matter the time of day.

Look Up A large *Skylight* brightens the lounge and adds a sense of grandeur to the View Profile. It is surrounded by stylish curved cabinets.

GoWinnebago.com

24J Connect with Sunset Cherry Cabinetry

Custom furniture such as the BenchMark dinette in the View, the Comfort Sofa Sleeper (NA View 24J) or the available L-shaped sectional dinette in the View Profile provide the ideal place to relax, watch TV or listen to the coach stereo system. LED lighting comes standard, reducing energy consumption by up to 70%; great for extended dry camping. Available amenities include a powered skylight/roof vent and the interior upgrade package with MCD American Duo solar/blackout roller shades.

LCD TV on Swivel Bracket

24V Available Powered Skylight

24V Galley with Mocha Cherry Cabinetry

You might be surprised by the versatility of the microwave/convection oven that allows you to bake and brown just like a conventional oven. You will find plenty of space for meal preparation with the flip-up countertop extension (24V) and you can add the wood sink covers as part of the interior upgrade package. A water filtration system is also available for on-demand fresh drinking water.

Sink and Range with Covers

24J Galley with Sunset Cherry Cabinetry

24V L-Shaped Sectional Dinette

The View comes standard with the BenchMark full-comfort dinette with innerspring cushions that flip up to access hidden storage compartments. In the View Profile, select the standard Comfort Sofa Sleeper with movable table or available L-shaped sectional dinette.

24J BenchMark Full-Comfort Dinette

24V Flex Bed as Queen Bed

For sleeping flexibility, nothing beats the Flex Bed kit in the 24V that quickly converts from two twin beds into a queen bed and back again. Select the 24G for a bedroom slideout and the comfort of a walk-around queen bed.

24V Flex Bed as Twin Beds

24J Bathroom

Dash

Ultraleather cab seats turn to face the lounge, increasing your effective living space. While you drive, listen to CDs or MP3s through the touch screen RV Radio with easy to use controls that incorporates the rearview monitor for safe backing and maneuvering. Upgrade to Sirius® satellite radio for even more listening options.

RV Radio/Rearview Monitor

Swivel Cab Seats

Available exterior speakers let you listen to the coach stereo while you relax under the awning. You might be surprised by the amount of storage you will find, especially if you select the 24V with its large rear compartment.

Coach Stereo System

24V Exterior Storage w/Side and Rear Compartment Doors

Powered Patio Awning

Fiberglass Roof

The crowned, one-piece fiberglass roof is backed by a 10-year parts-and-labor roof skin warranty.

Rubber Can't Cut It

Rubber roofs used by competitors can streak and degrade over time.

Interlocking Joints

Specially engineered interlocking joints connect the floor, sidewalls and roof where competitors often rely on simple screws to bear the weight.

**Embedded Steel**

Metal substructures embedded into the sidewall provide solid attachment points to keep cabinets and appliances mounted securely in place.

E-Coating

An electrodeposition coating helps protect critical steel components.

Solid Framework

Aluminum extruded in our own facility to our exacting standards creates an extremely strong and solid structural framework.

Thermo-Panel® Sidewalls By layering fiberglass and high-density block foam insulation with welded aluminum support structures, we create some of the industry's strongest, most durable and lightweight sidewalls.

Laser-Cut Tubing

Precision laser cutters create precise joints in structural steel that are stronger and require less welding.

View

SUPER STRUCTURE

BUILT TO LAST

Every coach—from our smallest Class C to our largest diesel pusher model—is built to Winnebago Industries'® legendary SuperStructure construction standards. It's a process developed and refined over more than 50 years of building some of the strongest, most durable coaches in the industry.

TESTING

Before rolling out of our factories, every coach undergoes an extensive 113-point inspection. Each coach also passes a high-pressure water test that simulates rain at a rate of 50-inches per hour to check for leaks. During the design process, computer simulations, our physical testing center and rigorous test track ensure each model is built to last.

**DETAILS**

At Winnebago Industries, we treat the features you can't see with the same care as the ones you can. Look in the access panels of some of our competitors' coaches and you'll see loose insulation and wires haphazardly strewn about. Winnebago Industries maintains a clean fit and finish throughout so your coach will last for the long haul.

**BUILT IN-HOUSE**

We extrude our own aluminum. We rotocast our own plastic components. In fact, we manufacture most of our own parts so they are designed to fit the space, rather than fitting the space to an awkward off-the-shelf component size.

**SUPER
STRUCTURE**
BUILT TO LAST

High-mount brake lamps

Daytime running lamps

Warranty⁶

12-month/15,000-mile basic warranty⁷

36-month/36,000-mile limited warranty on structure⁷

10-year limited parts-and-labor warranty on roof skin⁷

- 1 The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
- 2 The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.
- 3 Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- 4 Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- 5 Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR, as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- 6 See separate chassis warranty.
- 7 See your dealer for complete warranty information.

NA Not Available

Not all items available in combination. See dealer for details. Winnebago Industries® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Comparisons to other motorhomes are based on the most recent information available at printing.
